

Alltogether!

In our project, we aim to interact with both culture and creativity, design and art, based on special days celebrated in the world and special days celebrated in the countries of our partners. In addition, we will support our students in their project-based learning by getting them to have fun with the activities they will do on designated special days and integrating them into the lessons.

Project working process

October 25- November 1

- * Preparing the project survey questions and applying them to the teachers and students at the school.
 - * Evaluation of the survey results.
 - * Obtaining Twinning student permits from parents.
 - * Making project logo designs with students.
 - * Determination of project rules.
 - * Preparation of project boards in schools.
- * It has been decided that our project logo will only be used on our end product and that each partner can use their own logo in special day events.
